

# MetaBet

# MetaBetMask.Com

## Whitepaper

MetaBetMask.com is the first fully Web3 decentralised sports and events betting platform enabled by smart contracts where betting odds are determined only by the user's bets and 100% of all pooled bets are distributed to the winners.

No bookmaker fees, No KYC, No bet limits.

The MetaBet decentralised economy is controlled by Oracles which process tokenized Truth to Earn data, ensuring 100% accurate truthful results.

AI sports betting and event prediction engine  
DAO controlled by decentralised oracle

# Executive summary

MetaBet is the leading decentralised development targeting the fragmented growing international sports betting market opportunity, MetaBetMask.com leverages Web3 and smart contracts and Artificial Intelligence (AI) to provide better solution.

## Best Betting Marketplace

The MetaBet solution replaces the traditional bookmaker and their fees with a fully decentralised sports betting marketplace enabled by smart contracts.

- Betting odds determined user bets
- 100 % of all betting pools distributed to winners
- Betting odds are determined by user's bets
- Completely anonymous, unlimited betting
- No bookmaker fees or commissions
- AI smart betting recommendation and arbitrage engine

## MetaBet Truth Oracle

The innovative MetaBet Truth Oracle ensures 100 % accurate truthful results. The oracle consists of multi-signature wallet mechanisms that makes it impossible to capture the Oracle.

- Decentralized oracle
- Community is paid to confirm the truth
- AI results

## Token economics

- GOAL            No tax football betting token, traded on CEX & DEX
- TRUSC          100 % liquidity backed platform stable coin with exit tax

## Secure investment opportunity

MetaBet is seeking USD 500,000 funding investment to accelerate awareness and market penetration of the MetaBetMask decentralised sports book offering.

- Debt offer    up to USD 500,000    USD/USDT/USDC    no KYC    100 % return
- Equity offer   up to USD 500,000    10 % equity        KYC        100x return

Debt option repayments are secured by smart contracts on withdrawal tax. The equity is backed with an official legal shareholder agreement.

# International Sports Betting Opportunity

## Growing International Sports Betting Market

- USD 76,75 billion 2021
- 10.2 % CAG
- USD 167,6 billion by 2029

MetaBet is entering a large growing market

## Highly fragmented market

- 470 sportsbook companies
- Space for new entrant

MetaBet is entering a fragmented market

## 45,000 Sporting events every year

- Focus on main events
- Many events not covered

MetaBet will cover many Sports

# Betting Process

## Traditional bet process

Bookie Sets Odds

Users Bet

Pay-outs

1. Bookmaker sets the odds for each event
2. Gamblers bet
3. Bookmaker makes pay-outs to all winners

Bookmaker fees will vary between operator and sporting event ranging from 3.5 % to 25.0 % of the amount bet.

**Bookmaker cost 3.5% to 25%**

## MetBet bet process

Users Bet

Users Set Odds

Pay-outs

1. Gamblers bet
2. Odds set by community through bets
3. Pay-outs managed by oracle and smart contracts

**No bookmaker cost**

MetaBet is creating a fairer, cheaper, faster solution

# MetaBetMask.com

The MetaBet solution replaces the bookmaker and their fees with a fully decentralised sports and events betting marketplace enabled by smart contracts where betting odds are determined by the total of user's bets and 100 % of all bet pools are distributed to the winners without bookmaker fees.

**MetaBetMask.com decentralized sports betting leverages Truth 2 Earn to bring together the betting crypto community and is secured through Web3 and smart contracts.**

- True decentralized sports and events betting managed by smart contracts
- Trustless through MetaBet Truth Oracle
  - Decentralized independent Truthtellers
  - 3-layer verification process
  - Multi-signature wallet mechanism
- Web3 integrated
  - Connects to users' Metamask Web3 wallet
  - Additional wallets being enabled soon
  - Seamless fast process
  - Automated pay out to users Web3 wallet

## MetaBet Advantages

- Betting pool size determined by total of all the user bets for each pool
- Decentralised Pool odds determined by respective user bets in each pool
- 100 % of all bets distributed to winners
- Unlimited bets
- Completely anonymous
- No book making fees
- No commissions
- AI smart bets
- Tradable bet receipt

## Not a typical Crypto Currency Project

Even though MetaBet project leverages web3 and blockchain technologies to allow bets with crypto currencies, the project does not have any project tokens traded on any CEX or DEX exchanges or discounted tokens which could be dumped and also does fall under any crypto licencing requirements.

- Very low withdrawal tax

# MetaBet Betting Smart Contract

**Safety through transparency**

## Functionality

The MetaBet Smart Contracts handles

- Links to Web3 wallets
- Receiving bets
- Betting pool management
- Odds calculations
- Automatic pooling across multiple crypto currencies
- Result triggered by MetaBet Truth Oracle
- Payout calculations
- Payout disbursements
- Tradable bet receipt

## Verifiably Secure

- Every betting transaction with the MetaBet Smart Contract is publicly recorded on the respective blockchain.
- The MetaBet Smart Contract can be verified by anyone on our github page ensuring complete transparency.

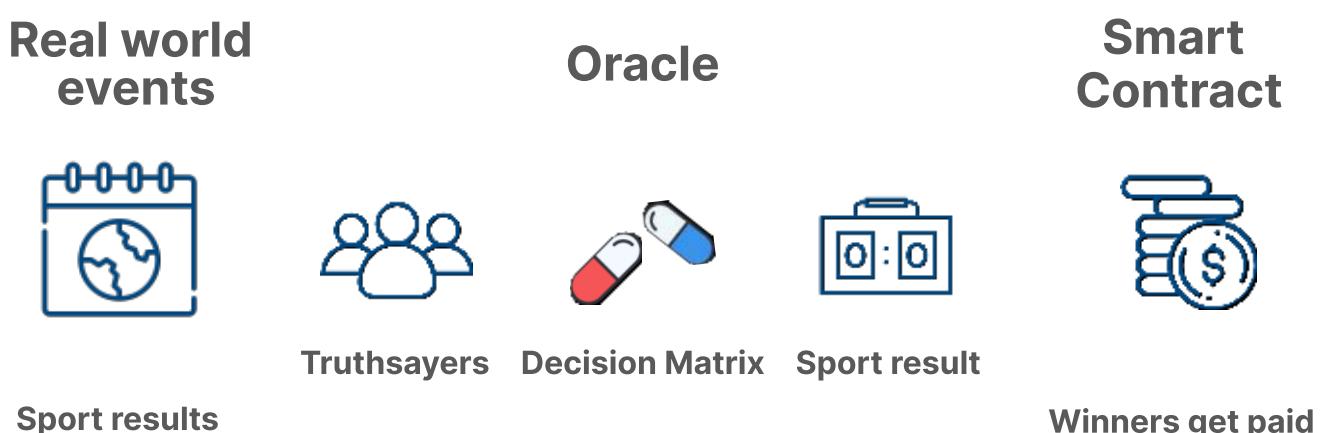

# MetaBet Truth Oracle

**Truth through decentralized oracle**

## Oracles

A blockchain oracle is a connection between a connects smart contract and information from the real world. An oracle consists of a pool of independently appointed truthsayer / members who enter outside information into a smart contract. The oracle algorithm determines the result which then triggers action within the smart contract.

## MetaBet Truth Oracle

The MetaBet Truth Oracle is a multi-signature wallet oracle controlled by a smart contract. The first stage is a quick survey by anyone logged on to the platform, the second stage is a query result from Truth AI the third stage is a Fail Safe mechanism. The MetaBet Truth Oracle mechanism will ensure that only 100% accurate event results unlock payments to the winners.

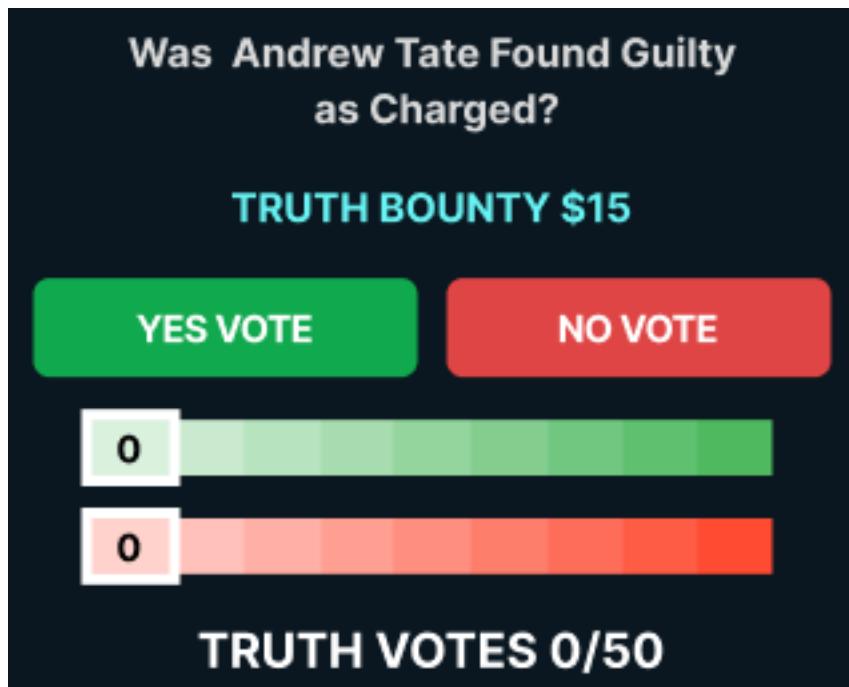

# MetaBet Truth Oracle

## 100 % Decentralized Truth Oracle

The MetaBet Truth Oracle is a decentralized multi-signature, multi-stage truth telling oracle that has been created to ensure 100 % accurate truthful results and impossible to capture the Oracle or change Oracle results.

### 1. Truth 2 Earn Quick Survey

- a. A quick result survey will be offered after the completion of any event
- b. Any online wallet can participate in this survey
- c. The MetaBet Truth2Earn smart contract collects the survey results and the majority result unlocks the first multi-signature wallet key.
- d. Participants with the correct truthful results in the Quick survey will be rewarded with Truth tokens which can be used for no commision bets, staking or conversion to BUSD on MetaBetMask.com

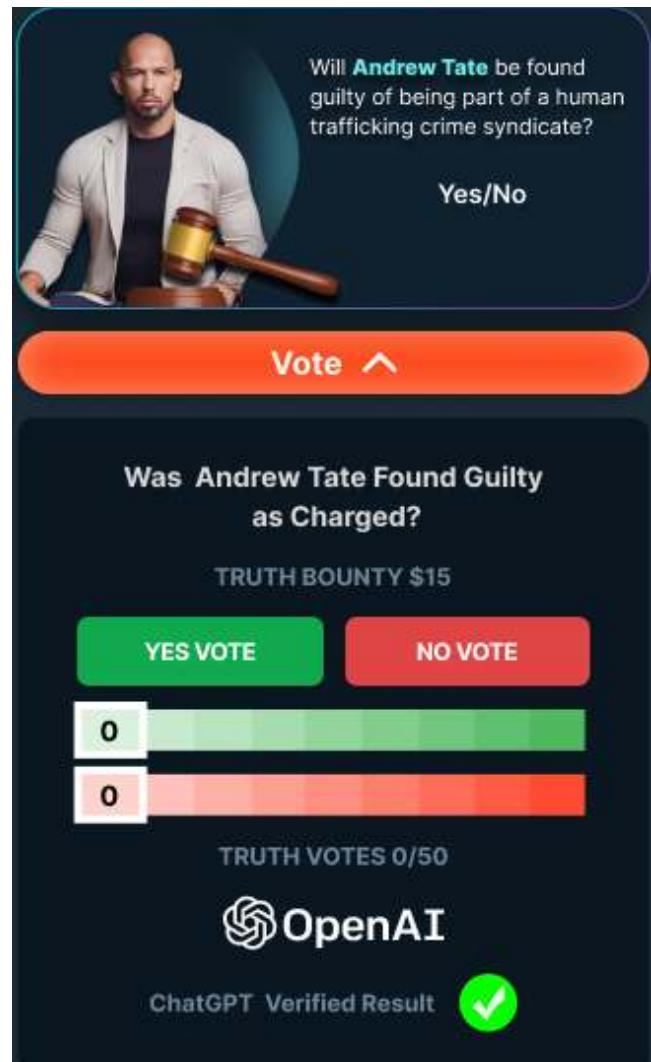

# MetaBet Truth AI and Oracle Fail Safe

## 2. Truth AI

- a. The MetaBet Truth Oracle leverages the capabilities of AI to automate truth results.
- b. AI chat will be asked to confirm the event result.
- c. The MetaBet Truth 2 Earn smart contract collects the Chat AI results which unlocks the second multi-signature wallet key

## 3. Fail Safe

- a. The MetaBet Truth 2 Earn Oracle includes a fail safe wallet address
- b. This fail safe wallet address can only be accessed by the founders of MetaBet
- c. This wallet can adjust the result if any of the previous survey is compromised.
- d. The founders have the most to lose if the decentralized multi-signature, multi-stage truth telling oracle would ever get compromised.
- e. Only now can the MetaBet Truth Oracle unlock the payments for the event winners.

# Tradable bet receipt

## Bet Receipt NFT

For each bet a user places on MetaBetMask.com a bet receipt NFT is generated. The bet receipt confirms ownership of the bet and provides details on the bet placed.

- a. Event
- b. Bet side
- c. Date of bet
- d. Amount of bet

The bet receipt is required to claim winnings and can be resold on-chain **as soon as the event has started.**

## MetaBet market place

This is a market place where bets can be sold on-chain to other users. MetaBet betting pools odds are frozen once an event has started. The MetaBet market place allows bets to be resold to other users during a match.

- a. User puts his bet up for sale
- b. Bet receipt NFT, the ownership of the bet is put on-chain
- c. A new user can buy the bet on the market place with crypto
- d. The previous owner gets paid in crypto
- e. The bet receipt ownership is transferred to the new user on-chain
- f. The new owner can now claim bet pool winnings as they now own the bet receipt.

This bet marketplace allows users to take advantage of developing events and take **advantage of shifting odds during the event.** The AI smart bet recommendation engine will help identify bet arbitrage opportunities.

# AI smart betting

## AI smart bet recommendation engine

This AI identifies a user based on their wallet address and dynamically adjusts the bets displayed on MetaBetMask.com to the users interests and previous betting history.

- Better user experience
- Easier navigation
- Less time to find relevant bets
- More bets per user

## AI smart bet arbitrage

A bet arbitrage is created when there is a difference between the final odds of our betting pool events and bets offered by other bookmakers. The MetaBet AI bet arbitrage engine identifies possible bet mispricing and presents this information to potential sellers and buyers of Bet Receipt NFTs on our Bet Market Place.

- Scans betting odds from other bookmaker platforms
- Identifies bet mispricing and arbitrage opportunities
- Presents these opportunities to our users

## AI smart bet prediction

The MetaBet AI smart bet prediction engine will use AI and machine learning to make better outcome predictions which can be used to improve user advantages in placing bets.

- Scans historical event information
- Scans betting odds from other bookmaker platforms
- Leverages MetaBet pool betting information
- Identifies bet mispricing and arbitrage opportunities
- Presents these opportunities to our users

# Service guarantee

- Blockchain BSC
- Token standard BEP20
- Supply 10,000,000 (Original Supply 100,000,000 90 % burned)
- Contract 0x438fc473ba340d0734e2d05acdf5bee775d1b0a4
- Contract owner Renounced
- Price Actively traded on Bitmart / Hotbit / Pancakeswap

### Future sports specific tokens

MetaBet will launch partnerships with additional no fee sports betting based on the market potential of each sports betting market.

# MetaBet Investment Offer

## **Private placement investment offer**

MetaBet is seeking investments to accelerate awareness and market penetration of the MetaBetMask.com decentralised sports book offering.

We strongly believe that we have a fantastic product which will gain great traction with the gambling community. We are aware that big players in this industry will strive to copy our business model and may launch similar products. We wish to pre-empt this by pushing our product across multiple sports and markets simultaneously and are therefore seeking additional **USD 500,000** funding through either of the following vehicles.

## **1,000 BNB Investment Offer**

### **Fixed BNB return investment offer**

- Up to 100 tranches of 10 BNB each
- Fixed / guaranteed investment **return 100 % p.a.**
- Timing of returns variable and linked to **exit taxes on TRUSC**
- Expected payback **within 6 months**
- **Secured** payback through exit tax on the TRUSC smart contract
- **No KYC**

## **150 ETH Investment Offer**

### **Fixed ETH return investment offer**

- Up to 100 tranches of 1.5 ETH each
- Fixed / guaranteed investment **return 100 %**
- Timing of returns variable and linked to **exit taxes on TRUSC**
- Expected payback **within 6 months**
- **Secured** payback through exit tax on the TRUSC smart contract
- **No KYC**

# MetaBet Equity Investment Offer

## MetaBet Equity Offer

- Up to 10% tranches of 2.5 % each
- **Valuation at USD 5,000,000**
- **Full Know Your Customer** process required
- **Shareholder agreement**
- Stock transfer in newly created **Swiss Holding Company**
- Exit option through **IPO** within 24 months
- Returns in **excess of 100x**

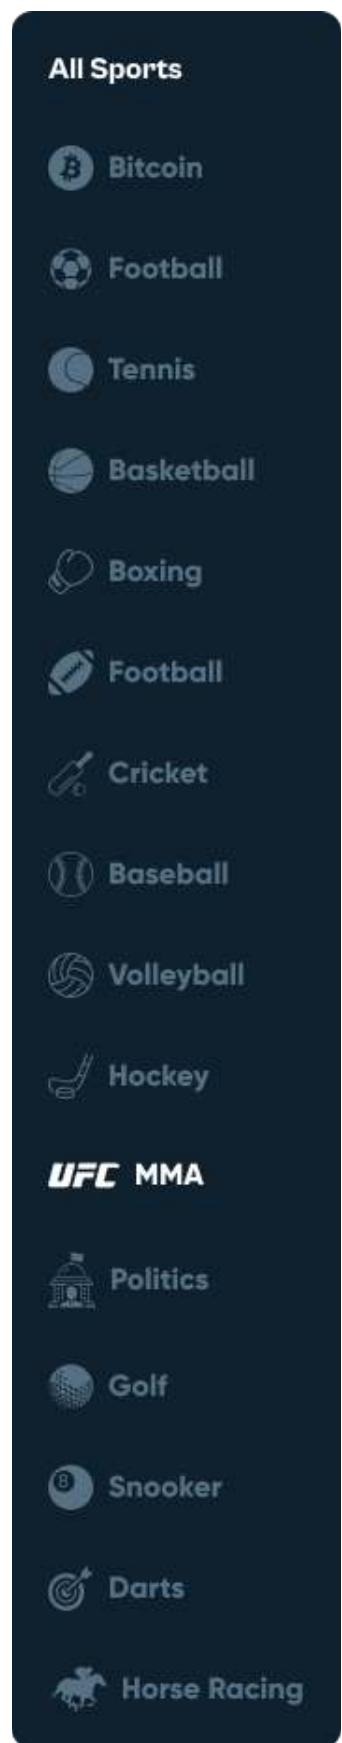

## Private placement process

- All the investment offers are only available through a private placement process
- This offer is not open to the general public
- Please contact Chief Executive Officer for details **Thomas@metabetmask.com**

# Roadmap

## Growth map

### Q3 2022

- Design user interface user experience
- Develop tokenomics
- Design work to earn model
- Prepare documentation offer

### Q4 2022

- Develop platform smart contracts
- FIFA World Cup 2022 Qatar beta test
- Smart contract factory beta testing
- MetaBet Oracle beta testing

### Q1 2023

- Incorporation in Costa Rica
- Launch of MetaBetMask.com
- Marketing Airdrop
- Marketing campaign
- Telegram airdrop channel marketing and promotion
- Private investment round
- Expansion to all sports
- AI oracle integration
- Telegram shilling
- Media

### Q2 2023

- Multi wallet connect
- Bet market place
- Expand brand
- Advertising campaign
- Expand partnerships

### Q3 2023

- AI smart bet recommendation and arbitrage enging
- Advertising campaign
- Incorporation in Gibraltar
